Maximizing Your Webinar Participation: Zoom Tips

• **Audio Settings:** You can change your audio settings. You can also click the upward arrow (^) next to the microphone icon at the lower-left of the Zoom window to change your speaker.

• **Captioning:** Available in a separate browser window by clicking the link to the following page on Captioned Text.

• **Questions:** If you have a question for today’s presenters, please type it in the Q&A box at any time during the presentation. You do not have to wait for the Q&A discussion to begin. Open the Q&A window, type in your question, and then press “send.” You can also include questions in the chat box. You will receive a reply back via text in the Q&A window or the question will be answered live.
Celebrating the contributions of America’s workers with disabilities past, present and future!
Agenda

• Welcome

• Tennessee Department of Intellectual and Developmental Disabilities

• Georgia Department of Behavioral Health and Developmental Disabilities, Division of I/DD

• Wisconsin Department of Health Services, Division of I/DD

• Question and Answer Session

Medicaid Alternative Pathways to Independence (MAPs)

By: Jason Camperlino
DIDD - Tennessee
10-11-2022

This presentation was prepared by The Lewin Group/TASH under the Administration for Community Living (ACL), Administration on Disabilities (AoD) Contract HHSP233201500088I / 75P00120F37007
MAPs began with a VISION......Tennessee and DIDD knew that traditional LTSS were costly, and, at times, invasive on the individual receiving supports. By prioritizing EARLY intervention, could we offer alternative supports for individuals in the communities of Tennessee and prevent learned dependency on LTSS?

The Division of Program Innovation through the State of Tennessee’s Department of Intellectual and Developmental Disabilities created this vision for the MAPs program and launched this initiative.

Program Innovation (tn.gov)
1-31-2022 Governor Bill Lee released his State’s FY 2023 budget including 100% State Appropriations from American Rescue Plan Act for the Medicaid Alternative Pathways to Independence (MAPs) program which would support 1250 Individuals Statewide. Each person supported would have access to an annual budget of $20,000.00 for services and supports for 3 years.

Tennessee General Assembly approved the proposed budget in April 2022.

Much of 2022 has been spent developing the specific constructs and program implementation plan. Expected launch is November 2022.
Offer supports to 1250 Tennesseans with intellectual and/or developmental disabilities to create a vision for their lives and increase their independence at home, at work and in the community.

Produce a Long-Term Services and Supports Diversion Program for Transition Aged youth.

- Develop a service approach that focuses on implementing **Technology-Based Solutions and Employment Innovations**:
  - Incorporate 3 Program Outcomes (Independence at **Work**, Independence and **Home** and Independence in the **Community**).
  - Incentivize Milestone Completion promoting provider efficiencies and achievements (**Value-Based Payments**).
  - Fade out of services after 3-years of supports leaving the person-supported with knowledge on implementing the **Virtual Community Resource Map (VCRM)** for continued community engagement.

Incorporate MAPs principles into current LTSS programs and prepare for MAPs version 2.0.
MAPs TARGET POPULATION

- Transition-age youth during their last three years of high school.
- Individuals who have already left high school.
- Individuals who are waiting for services from—or may apply in the future for—the Employment and Community First CHOICES LTSS program.

https://youtu.be/i_7AOi0T8cs
Ensure program success by partnering with Organizations who have demonstrated competencies in DIDD’s Pillars of Transformation and execute contract agreements.

- Employment First
- Technology First
- Person-Centered Thinking, Planning and Practices

Identify metrics to measure success in LTSS Diversion and Milestone Achievement through identified curriculum.

Develop and submit CMS waiver amendment to include MAPs as a recurring program for transitional age youth through DIDD.

Questions and Answers
Supported Employment Early Engagement Pilot

Christine Gudgin
Supported Employment Manager
Georgia Department of Behavioral Health & Developmental Disabilities

Robyn Slocom
Senior Training & Technical Assistance Manager
WISE

This presentation was prepared by The Lewin Group/TASH under the Administration for Community Living (ACL), Administration on Disabilities (AoD) Contract HHSP233201500088I / 75P00120F37007
Overview & Objective

- The focus of this pilot is to provide the opportunity for young adults with intellectual and developmental disabilities (I/DD) who have exited the education system to receive supports for integrated, community-based engagement through a comprehensive range of services to obtain competitive integrated employment (CIE).

- The objective of this pilot is to increase the number of young adults with I/DD in CIE and to closely track pilot outcomes to guide DBHDD in making data-driven decisions to strengthen supported employment services.
The following pilot elements were selected to address common reasons for why young adults do not choose to engage in employment services and in turn, do not engage their communities as full and active members after leaving school:

- Transportation
- Assistive Technology
- Enhanced Supports

Additional pilot component: Revised rate structure for initial and extended SE supports
• Using the framework that was presented in the ARPA request, SE Team developed a basic outline of the Supported Employment Early Engagement Pilot and utilized DBHDD’s Technical Assistant Partners, WISE, in developing a proposal for DCH approval.

• All the pilot elements, rate structures and possible rate amounts were discussed in depth with WISE and SELN when developing some of the key details of pilot.

• Both organizations provided SE team with various rates and rate structures that are in place around the country, potential ideas for Assistive Technology and vendors, how enhanced supports could work, and how transportation supports can be blended.
Training & Technical Assistance

• Utilizing WISE as our training partner by offering a variety of best practice core competency opportunities to supported employment providers.

• The trainings are geared to different provider technical assistance needs based on field experience:
  • NEXT
  • Plan to Placement
  • Job Developers Cohort
  • WOA 100 and WOA 200
  • Recruit, Cultivate, and Retain

• WISE has also developed a System Navigator On-Demand Learning and Cohort.

Thinking Outside the Box: States’ Journey in Using American Rescue Plan Funding to Increase Competitive, Integrated Employment

Wisconsin

October 11, 2022

This presentation was prepared by The Lewin Group/TASH under the Administration for Community Living (ACL), Administration on Disabilities (AoD) Contract HHSP233201500088I / 75P00120F37007
Wisconsin ARPA HCBS Projects

- HCBS Rate Reform
- Direct Care Workforce
- Tribal
- Grants
  - Independent Living
  - ADRC Modernization
  - Supporting Kids Together
  - Assisted Living
  - Adult Incident Reporting System
HCBS Rate Reform

- 5% rate increase for all HCBS providers & Claiming 10% Enhanced FMAP
- Develop a Rate Schedule for Adult HCBS Services
- Fund tiered payment rates for personal care + supportive home care
Direct Care Workforce

- Staff Stability Survey
- Certification & Registry
- WisCaregiver Connection (IT Platform)
- Career Ladder w/ credentialing, training, & differential MA rates
Certified Direct Care Professional (CDCPs)

- 30-40 hour asynchronous online course with proctored exam and public registry.
- CY 2023 recruit, train and employ 10,000 CDCPs.
- Marketing Plan leveraging WisCaregiver Career branding.
- CDCPs will receive bonuses for working at an approved HCBS provider or agency.
- Workforce website for employer, job seekers and CDCPs.
Career Laddering

- Ladder to careers in health care management, nursing, and multiple medical fields
- Looks good on a resume when applying to health care jobs and post-secondary education
- Scholarships
- Badging and micro-credentialing including Competitive, Integrated Employment (CIE)
- Low-risk opportunity for career exploration
## ARPA Grants Results

<th>Average Cash Amount Requested*</th>
</tr>
</thead>
<tbody>
<tr>
<td>1,151</td>
<td>723</td>
<td>$213,332,539.15</td>
<td>$297,534.92</td>
</tr>
</tbody>
</table>

*Six applications have budgets outside of the allowable limits, exceeding $2M or of $0. The 6 applications are not included in the total cash amount or average cash amount requested calculations.

### Submitted Applications by Project Beneficiaries

88% of the submitted applications would benefit individuals receiving HCBS.

- Individuals receiving HCBS: 88%
- Direct care workers of HCBS providers: 74%
- Families of individuals receiving HCBS: 67%
- HCBS providers: 61%
- Other: 4%

### Potential Project Beneficiaries of Submitted Applications

Over 800,000 Medicaid Participants and over 1 million Families of HCBS individuals would benefit from the submitted applications.

- Medicaid Participants: 826,571
- Direct Care Workers: 1,027,013
- Families of Individuals Receiving HCBS: 700,625
- Other Individuals to Benefit: 439,101
- HCBS Providers: 52,518

- Total: 1,000,000 2,000,000 3,000,000 4,000,000
ARPA Grants Results

**Top 10 Project Categories**

61% of submitted applications address the caregiver workforce and training.

- Caregiver workforce: 61%
- Training: 61%
- Recruitment: 56%
- Person centered care: 56%
- Underserved populations: 49%
- Member experience: 48%
- Provider Development: 41%
- Community Integration: 41%
- COVID-19 recovery: 40%
- Innovation: 34%

**Medicaid Programs that Would Benefit from Submitted Applications**

82% of submitted applications would benefit the Family Care Medicaid program.

- Family Care: 82%
- Family Care Partnership: 48%
- IRIS: 48%
- Children's Long-Term Support: 26%
- Program for All-Inclusive Care for the Elderly (PACE): 23%
